Re: Health Plan Coverage from MMHIA

When Mid Michigan Health Insurance Advisors (MMHIA) was referred to our office, the timing was perfect, as we were looking for more affordable benefit options for our staff.

They were able to find individual solutions that were tailored specifically to our staff needs, and were able to achieve the maximum tax credits to help reduce the overall cost of our staff monthly health insurance premiums.

MMHIA enrolls, manages and maintains our staff individual health insurance needs and now the staff is able to design and customize their own plans, with tax credits that offset more than the group plans employer contributions.

I would not hesitate to recommend MMHIA to any company, organization and individual.

Regards,

Torrie L. Lee
